## Bank of Montreal Bi-Weekly Crop Report

General—With frequent and well distributed rains during the past two weeks, crop prospects are promising in practically all areas of the Prairie Provinces. Early June frosts have not damaged grain crops but market gardens have suffered to some extent. Warmer weather would now be beneficial. Copious rains have also improved crop conditions in all other Provinces in the Dominion. In Quebec growing conditions are satisfactory, although warmer weather is now needed. In Ontario excellent progress is being made by all crops. In the Maritime Provinces, marked improvement in all crops is shown but here again warmer weather is required. In British Columbia, owing to the dry spell in May below average yields are indicated though recent rain has materially improved conditions. Details follow—

### PRAIRIE PROVINCES

Alberta—Crops are backward but conditions generally are favourable. Moisture conditions are satisfactory, except in the southeastern area and wheat shows strong even growth. Pastures and ranges are in good condition. Sugar beets are making good headway. Saskatchewan—All grains are making good progress. Plants are well rooted and have good colour. Moisture conditions generally are satisfactory, although further moisture is required in the southwestern area. Recent rains have improved prospects in the west central area, where soil drifting had occurred. Scattered areas report damage from cutworms and wire worms. Hatching of grasshoppers has been retarded by wet cool weather. Pastures are in good condition. Manitoba—Wheat growth is uniform and vigorous. Plants are standing well at an average height of 7 inches. Moisture is ample for the present and prospects for all grains are promising. Grasshoppers are hatching in some districts but are not yet menacing. Pastures are in good condition.

### PROVINCE OF QUEBEC

Seeding of grain and the planting of corn and potatoes are now practically completed, while the moisture content of the soil has been favourable to germination early growth being retarded by cool weather. Hay has benefited from recent rains and continues to make rapid growth. Pastures are in good condition. Fruit trees have blossomed well and the outlook for small fruits is promising. Transplanting of tobacco is under way.

### PROVINCE OF ONTARIO

Fall wheat is heading out with a good length of straw and an average yield is predicted. Spring grains look better than for some years past. Barley and oats show an even growth with plants strong and well rooted out. An average or better hay crop appears assured and the first cutting of alfalfa has commenced. Grass pastures are excellent. Corn, potato and root crops germinated heavy yield and strawberries are now being marketed. Prospects are favourable for a good grain crop. Tobacco plants were set out under almost ideal conditions but damage by cutworms and high winds has necessitated some replanting.

### MARITIME PROVINCES

Seeding and planting are for the most part completed. Hay, though backward, is progressing satisfactorily and an average crop is looked for. Pastures show improvement and are in fair condition. In the Annapolis

## Children's Sports Monday Morning

Time 9:00 a.m. Place North side of Ball Park near the Opera House.

There will be FREE Ice cream served to all children under 14 years of age, who are on the grounds before 9 a.m. None served after 9:00 a.m.

### RACES

1. Girls under 4
2. Boys under 4
3. Girls under 6
4. Boys under 6
5. Girls under 8
6. Boys under 8
7. Girls under 9

28. 5 Team relay, girls under 14
29. 5 Team relay, boys under 14
30. Scout Race, 6 man team No age limit.

Suitable prizes for 1st 2nd and 3rd in all races. Be out early and enjoy the fun.

Ice Cream furnished by First Ward Primary. Sports in charge of Sunday School Committee headed by T. Geo. Wood, Earl H. Scoville and F. R. Taylor.

### NEWS NOTES

A new \$2,000 horse stable will be built this summer at the Lethbridge Experimental Farm as part of the Public Works program of the Federal Government.

The Botha district near Vegreville reports an infestation of rabbits and skunks, the latter killing two dozen chickens at a time, breaking up setting hens and turkeys, and all this on top of their nauseating smell.

The Sunday School of the local United Church had their Annual Outing at Henderson Park last Saturday. Mr. Fancett took most of them over in his truck.

Valley the set of apples has been heavy.

### BRITISH COLUMBIA

Crop conditions generally have materially improved with rain in most districts but the yields of early strawberries and the first crop of hay are light. Raspberry and loganberry canes suffered from winter killing and drought and a yield of 60% of average is now indicated. Potatoes, tomatoes and other vegetables are doing well. Grain crops are patchy and below average. Apples promise a good average yield but cherries are expected to yield only 60% of average. Apricots will be very light. Fruit trees generally are in good condition. Pasture has improved.

## It's Your Stampede! Help Put It Over

The details are all arranged for the Biggest and Best Stampede ever held in Raymond, to be staged next Monday and Tuesday. The sponsors of this show are depending on you to be there, and boost it. Don't let them down.

Two or three dozen men have been working almost steadily for the last three weeks or a month to get this arranged. Ray Knight, veteran Stampede man of Utah and Idaho has rounded up the toughest and meanest horse flesh on the Kircaldy to bring in to fight it out with the riders, and he says many of the horses never have, and likely never will be ridden to finish. Meeks Bros. have a bunch of cattle coming in who hardly know what man looks like, and they will furnish plenty of thrills in the steer riding, decorating and calf roping.

Entries have been received from many of the riders and ropers in the South, and also in Montana, and in the opinion of the boys themselves who make the show, the program and prize list is one of the best in the south. Can you afford to miss such an attraction.

All who attended two years ago will remember how interesting the show was with the loud speakers to announce each event as it was pulled off and

every rider of the day. This year arrangements have been made to have a broadcasting unit installed with six horns so that everyone on the entire grounds will know just exactly who and why and where.

Every effort has been made to make this show outstanding. Every man on the Committees donates his time, and their work is not finished until the show is all over and the accounts settled up for the celebration. Surly for what it will cost you at 50c. each for admission, you will not turn down your Board of Trade and Stampede Committee when so much effort has been put forth to make Dominion Day in Raymond an outstanding success.

And the Dance at night will be as enjoyable as planning can make it. More cement has been laid, adding to the surface of the floor. A straight ticket will be collected, not the Jitney Dance as has been run in the past, and you can dance until your feet ache, once you buy your ticket and no more interruptions. "Lou" and his Ambassadors will dispense the music and you are assured a good time.

Come out and meet your friends at the Stampede on Dominion Day and the Second.

## NEWS NOTES

John S. Smith, J. Y. Carr and son Eldon, of Cardston were business visitors in Raymond on Monday last.

Mr. and Mrs. Kimball Anderson and Miss Lucille Pyne, of Dryden's Lake, were Raymond visitors last Sunday.

A steam engine and large grain separator passed through Raymond Monday going west, the first steam outfit seen here for a number of years.

A Baptismal service will be held in the High School next Saturday afternoon at 2 p.m. Those interested please take notice of this.

Hon. J. J. McLellan, sitting member and Minister of Highways as the choice of the U.F.A. Nominating Convention in Taber last week, there being no other nominations made.

Gordon "Sonny" Rutten, who started the baseball season with the Wetaskiwin team, has been transferred to Edmonton, in the same loop, and will finish the season with the Edmonton nine.

Wallace Lindquist, 35, of Vimy, Alberta, shot his wife and 5 year old son, and then committed suicide on Saturday last, because his wife wanted a divorce, and he said he couldn't give up her and the boy. Their 7 year old daughter was not at home when the shooting occurred.

Elders Z. W. Jacobs and John S. Smith of the Alberta Stake Presidency will be the speakers in the Raymond Second and First Wds respectively next Sunday evening. They were scheduled for last Sunday night, but the visit of Elder Goddard of the Deseret Sunday School Board, changed these plans. The Genealogical Committees will have the programs in charge.

P. W. Cope is driving a new Pontiac Sedan purchased recently. A tan finish, it is a very attractive car.

Rain would be very welcome at present. Crops of all kinds would benefit immensely by it and everyone would enjoy it.

All the sheeting is on the R. W. Tollestrup houses now, and stuccoing and inside finishing will be under way very shortly.

Mr. and Mrs. D. H. Ellison of Waterton Park were Raymond visitors over the weekend.

An appropriation of \$49,000 has been passed by the Federal House for the erection of a Post Office and Customs Building in Cardston. Congratulations Cardston, this will be a much needed improvement and will fill a long felt want.

Hon. J. L. Ralston, who has been a prominent figure in Dominion politics for a long number of years, has announced his retirement at the conclusion of his present term in the house. He was a member of the Liberal Cabinet for a long time.

Principal J. O. Hicken took his Grade VIII students to "Whoop-up on Saturday for a whooping good time is reported, and it seems like a nice way for teacher and pupils to finish a year to have a social day together after the work and worries of the school year.

Mr. and Mrs. J. W. Keyes, Salt Lake, and Mr. and Mrs. Herbert Gleaves of Annabell, Utah, are here visiting relatives for a few days. Mr. Keyes and Mrs. Gleaves are brother and sister of Mrs. C. E. Hancock. They came by way of Seattle, Vancouver and Calgary, and travelled nearly 2,000 miles in getting to Raymond.

## J. Percy Goddard Speaks in Stake House

### Utica Singers Please Listeners

One of the outstanding musical treats of the season was the appearance here last Tuesday evening of the famed Utica Singers, of N.B.C. prominence, who were here at the Second Ward Hall Tuesday evening last.

In a program which lasted for about an hour and a half they held their listeners almost spellbound, and several of their numbers such as "Wagon Wheels," "Kentucky Babe," etc., had many of the crowd on the verge of tears, so realistic and emotional were the renditions. Outstanding in the negro plantation and folks songs was the emotional feeling, and the singers Tuesday night played this up to the full.

All who heard them were high in their praise of the excellence of the program, so much so in fact that some who did not hear them here Tuesday night to Lethbridge Wednesday night for their program there.

### NEWS NOTES

See you at the Stampede! Bring your friends with you.

Jas. E. Meeks was a Lethbridge visitor Monday last.

John H. Blackmore and other Social Credit boosters were in Lethbridge Wednesday evening last.

Persons on payroll from reporting firms in Canada showed an increase of 22,701 over the previous month. This at least sounds encouraging.

The Post Office at Welling, which has been closed for a number of years, is being reopened July 1st, with M. J. Wolsey as Postmaster.

A. Z. Jesup, for 33 years editor and owner of the Nanter News, has retired and has sold his interest to C. A. Marshall who has been in the newspaper business for many years. We congratulate Mr. Jesup on the success he has made, and wish the new owner continued success.

The Municipal Council meeting was held Tuesday, one week ahead of schedule. Reports of the road work now being completed, and routine business occupied the time of the afternoon. The monthly payroll was passed.

In last week's Magrath News the editor had a long tirade against buying automobiles instead of homes, and cited an instance in his own town. In the very next paragraph he advertises taking your summer vacation on a certain brand of tires. Be consistent brother, you can't use those good tires, unless you have a car to put them on. Or I presume this is just for the "nuts" who have already made the fatal mistake.

A very interesting and instructive meeting was held in the Stake House Sunday evening with Pres. O. H. Snow of the Stake Presidency in charge and both Ward furnishing the music with Chas. B. Strong conducting and Mrs. Emma Dahl at the Console. A ladies quartette furnished a very nice special number.

The speaker of the meeting was Elder J. Percy Goddard, of the Deseret Sunday School Union Board, who took as his theme the Restoration, and addressed his remarks to the younger generation pointing out to them some of the things in connection with the teachings of the restored gospel, which would help them to determine the right course in life for them to pursue. He told the audience that the only thing in life which would bring happiness, joy, security and satisfaction was living in obedience to the teachings of the Gospel of Jesus Christ. He cited experiences in his own labors as missionary and Sunday School worker to show what followed disobedience and disregard for Christian teachings and advice, and stated that the boys and girls of today would save themselves a great deal of trouble and sorrow if they would only follow the road maps and heed the sign posts along the highway of life placed there by those who had been over the road, and who knew what they were talking about. In closing he bore testimony to the efficacy of prayer, and read the poem on Prayer by Ella Wheeler Wilcox as a fitting thought for his audience.

The Stake House was well filled for the meeting, and everyone thoroughly enjoyed the remarks of Brother Goddard.

Wilson Rolfsen was the victim of a painful accident Tuesday forenoon, when a bunch of heavy planks fell edgewise on three fingers of his hand, smashing them quite badly, and proving very painful. He carried on his work however.

## United Church Sunday School Annual Picnic

The Annual Picnic of the Sunday School of the United Church of Raymond was held at Henderson Park on Saturday last. Sponsored by the Ladies Aid, the children were taken to Lethbridge in cars and trucks, and arrived there just before noon.

The afternoon was spent in recreation in the bathing pool and on the playground equipment, the children seemingly preferring this to any kind of program of plays, or sports. After their race period they were treated to a delicious luncheon, topped off with ice cream, and in the early evening they returned home again, tired, but very happy.

## Water Your Beets

Crop condition at this writing, Thursday morning, are still about even, and the beet fields look promising. Superintendent Taylor of the Canadian Sugar Factor's says, though that the beet fields immediately. Many are waiting for a rain, but the advice from the officials is to water, and to water now.

all sset.  
 extreme object of  
 desire was won  
 or-friend seemed to  
 it almost as soon as the  
 "lucky" girl and warned all  
 other aspirants to her sole-at-  
 tention to lay off as he printed  
 the announcement of your en-  
 gagement. Once more you were  
 the conquering hero, or thought  
 so. The girl may have had ot-  
 her ideas on the subject.  
 If after that you accomplished  
 anything worthy of note, the  
 world was told in letters bold:  
 "HOME TOWN BOY MAKES  
 GOOD!"

When those near and dear to  
 you were, by death taken out on  
 "The Great Adventure" the  
 Chief of the Columns apparently  
 forgot their vices, and proceeded  
 to laud their virtues and re-  
 mind the world of their fine  
 family connections—including  
 you.

When illness overtook you he  
 let all the neighbors know so  
 that mayhap the power of their  
 prayers could be added to the  
 forces of medicine.  
 And someday (should he per-  
 chance out-live you as he has  
 so many others) he, being kind  
 and faithful unto the end, will  
 once more use good paper and  
 ink for you. He will probably  
 tell mankind far and wide that  
 one has passed who was a use-  
 ful and worthwhile addition to  
 the race, that you have gone to  
 join the glorious company who  
 have become the "guests of  
 God."

Yes, from the cradle of birth  
 to the easel of death, the  
 home town editor is your friend.  
 He puts you on the map, and  
 if you are worthy, helps to  
 keep you there.

#### FAMOUS LAST WORDS

"I wonder if its loaded?"  
 "Step on the accelerator and  
 we'll try to get across before  
 the train comes."  
 "They say these things can't  
 possibly explode, no matter how  
 much you throw them around."  
 "I guess this rope will hold  
 my weight."  
 "Let's go out beyond the  
 lifeline."  
 "These traffic cops can't stop  
 me."

The accompanying chart shows how the price of gasoline to the retailer has decreased and the gasoline tax has increased since 1924. The data for this graph are based on figures published by the Dominion Bureau of Statistics.

## FALLING PRICES—RISING TAXES

IN 1924 the average price to the retailer of all gasoline sold in Canada was 26.6 cents per Imperial gallon. Since 1924 the price has fallen almost continuously and for 1933 and 1934 it stood at 18.8 cents—nearly eight cents less than in 1924.

"But", you say, "gasoline does not cost me eight cents less a gallon than ten years ago."

You are right, and this is why:  
 In 1924 the gasoline tax was new in Canada and the total gasoline tax collected in that year amounted to

an average of only a little more than 1/4 of one cent for each gallon consumed. But as the price of gasoline fell the tax on gasoline rose to higher and higher levels until in 1933 it amounted to nearly 5 1/2 cents for each gallon consumed in Canada.

When you buy a gallon of Imperial gasoline you also pay other taxes totalling about 8/10 of one cent. The profit which Imperial Oil earned on each gallon of gasoline that it made and sold during 1934 was just over 5/10 of one cent per Imperial gallon.

## HINTS TO BEEKEEPERS

Due to the late cold spring and cool showery weather during much of June, the prospects are for a late and perhaps rather light honey harvest. In view of this the beekeeper at this station has been taking precautions to make conditions as favourable as possible for the bees. One point upon which he lays particular stress is the danger of being tempted by the apparent strength of the colonies into providing them with too much honey-storing space. This is cool, changeable weather, forces the bees to waste much valuable strength in warming and ventilating the unnecessary supers. Consequently it is the practice here to confine the bees to the brood chamber until the honey flow becomes sufficiently heavy to necessitate the addition of supers.

Another point which he suggests may be of interest and value, particularly to the beginner is the method of handling the hives during the queen cell building season. When the brood chamber is full of bees and requires the first honey super a shallow super of drawn out combs without a queen excluder is placed over the brood chamber. Following this the hive is examined every few days for new queen cells—this may be done by simply tipping up the super from the rear. Queen cells found along the lower edges of the shallow super combs may be considered as swarm cells and the colony should be treated for swarm control. The presence of queen cells in the lower part of the brood chamber indicates a faulty queen. In such cases the old queen is removed and all but two of these lower queen cells are destroyed. One of the two remaining cells will produce a new queen to carry on the work of the colony.

## Heavy Yolks and Watery Whites in Eggs

It has been suggested that some of our readers who are interested in poultry may at this be somewhat disturbed over the appearance of an unusually high proportion of heavy or dark-colored yolks which reduce the grade on their eggs. Coincident with this there is often a complaint from housewives that the whites are watery and "run" when placed

in the frying pan. It has been the experience at this station that these conditions generally follow the turning of the hens out to the summer range or the feeding of an unusually large amount of green feed. The only quick cure or preventative appears to be confining feeding with a limited amount of green feed, but it will generally be found that both conditions tend to disappear after the hens have been on pasture for a few weeks and have become accustomed to the bulkier more succulent ration.

## STATISTICS

The criticisms which are heaped upon statistics should be directed at those who attempt to interpret the statistics rather than at the statistics themselves. After all, statistics are merely a record of facts expressed in the form of figures. Facts are facts, but the interpretation of facts may be faulty. Many people are interested in blood pressure. For one thing they want to know what is the normal rate. The truth is that there is no such thing as a normal blood pressure. Statistics give us the average pressures of persons who are apparently normal. Individually, we are not average persons, and we may still be normal even if we do not conform to the statistical average.

It is only some fifty years ago that practical apparatus was devised whereby physicians could measure the blood pressure. The use of the sphygmomanometer is now a regular part of the medical examination. It is one of the most useful aids which the physician has at his command.

The blood must be under pressure in order that it may circulate. The pressure depends upon the heart, the blood vessels, the blood itself and the condition of the organs through which the blood passes. Not only may the blood pressure be affected by changes in all or any one of these, but it is also influenced by the emotions.

In certain cases, increased blood pressure, or hypertension, is found to exist without any apparent cause. The person himself is unaware of it, and it is fortunate for him if it is detected at a periodic health examination before any harm has resulted.

Such hypertension is known as an essential hypertension. It

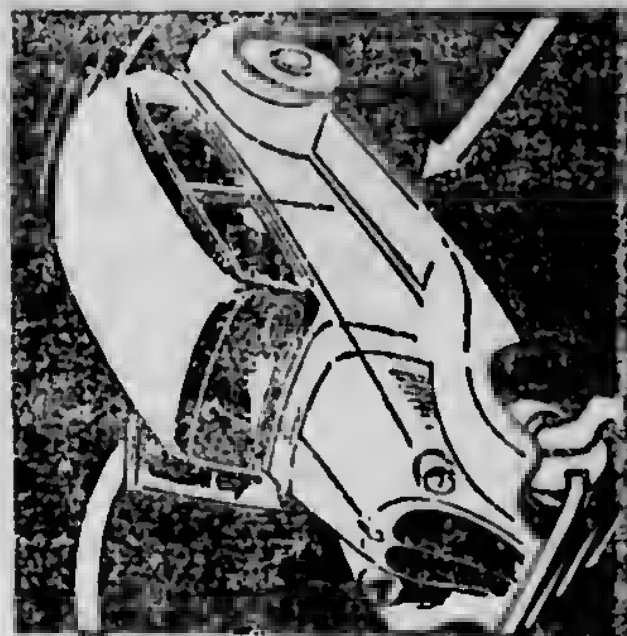

occurs most commonly among those who live a strenuous or worrying and energetic life, taking no time for relaxation. Statistics show that men who are above the average weight are frequently victims.

Prevention lies not in drugs but in good health habits. Avoid overeating and so avoid overweight. Eat in moderation of a wide variety of foods, making sure to include milk, green vegetables and fresh fruits in the diet. Moderate exercise at some thing which is enjoyed provides a part of the relaxation—physical and mental—which is required by all. Sufficient sleep is essential. All of this may be summed up by saying—live a reasonable, hygienic life, forget statistics and so control your blood pressure.

Questions concerning health, addressed to the Canadian Medical Association, 184 College St. Toronto, will be answered personally by letter.

## IF YOU DON'T GET BLOW-OUT PROTECTION

Maybe you don't think blow-outs are dangerous. You would if you heard what we hear every day—if you heard motorists tell of the blow-outs they've had. They say they're through taking chances. And they're equipping their cars with Goodrich Silvertowns. For Silvertowns are the only tires made with the Life-Saver Golden Ply.

## NO EXTRA COST

Why not get the Life-Saver Golden Ply blow-out protection found only in Goodrich Safety Silvertowns? You'll also get positive protection against dangerous "tail-spin" skids. And remember, Silvertowns cost no more than other standard tires.

## LOOK FOR THE MOUNTIE

This sign tells you we sell Goodrich Silvertowns with Life-Saver Golden Ply.

## YOU CAN'T STOP STOKING A STEAM ENGINE -- SAID WRIGLEY

Interviewed, and asked to what he attributed his phenomenal success, the late Mr. Wrigley, of chewing gum fame, replied, "To the consistent advertising of a good product."

"But," asked the reporter, "having captured practically the entire market, why continue to spend vast sums annually in advertising?"

Wrigley's reply was illuminating.

Once having raised steam in an engine, he stated, it requires continuous stoking to keep it up. Advertising stokes up business and keeps it running on a full head of steam.

This applies to YOUR business, too. Don't make a secret of your product. Tell people about it. Tell them what it does. Tell them its advantages. Tell them where to get it. Tell them through the Press and keep on telling them.

**BEAUTY'S COMMANDMENT**

Today, I want to remind you of a very important beauty commandment: do not be in a hurry. We know that nothing great or permanent was ever accomplished in haste, and this rule is vital and full of meaning when we come to the important task of beauty building.

In my little chats with you through the medium of this column, I have endeavored to stress the need for devoting, at the very least, twenty minutes a day to your beauty regime. It is not much to demand, and yet it will suffice if you do not miss a day.

Do you give the time grudgingly? Do you worry throughout the period that you are neglecting something else? If so, then I can assure you the results will be nearly always disappointing.

Now the ideal atmosphere to create during this precious twenty minutes of beauty building is one of unhurried concentration. Go into a room alone; shut the door behind you and leave outside that room everything that worries you. Oh, I know how many problems you have—housework to be done, someone ill, bills to be met or, perhaps, most difficult of all, your own attitude of discouragement. If you are discouraged because Mrs. Jones looked so charmingly young at the bridge party last night, and you appeared so haggard, remember this: you are now engaged upon reconstructing the damage caused by neglect. Ageing skin can be so often traced to mere neglect.

Each beauty period brings you nearer to your ideal of young, fresh, smooth skin.

Now that you are alone in your room, refuse to feel hurried. I would, in fact, prefer that if time does not permit the three steps to beauty, which I shall outline in my next chat, with you, that at least you accomplish the first step with a thoroughness which will have results.

The first step I speak of is cleansing. If this is done with

**NEWS NOTES**

Seven oil cars left the C.P.R. tracks near New Dayton Tuesday afternoon, and caused another flood of crude oil on the road. This is a frequent occurrence on this piece of road it seems.

Production from the automobile manufacturing industry during 1934 was valued at \$76, 133,248 which was 78 percent over the 1933 figure and the highest value reported since 1930. The total represents the factory selling value of all motor cars and parts made for sale in Canada and for export by automobile manufacturing and assembling plants in Canada, and also the amount received for custom and repair work in these establishments.

The unemployed men at Regina are determined according to newspaper reports to go on to Ottawa to press their demands in a body, despite the warnings of officials. They have been asked to return to their homes or the camps and carry on until the Government can arrange something that will suit all concerned.

Smarting under the defeat handed out by Hardieville last week, the local Baseball nine went to Magrath Wednesday and took out their wrath on the Garden City nine to the tune of 19 to 1. All the boys were hitting, and Campbell lead the barrage hitting everything "Huck" Blumel had to offer. This was the locals first league win. Keep it up boys.
